holos
Skincare from Nature

Creating luxury skincare brand Holos was a natural progression for Niamh Hogan whose background is in natural health.

Through her research of plant and essential oils for wellbeing, Niamh discovered the great benefits plant ingredients have on the skin and was inspired to create a skincare range that focused on skin health and on helping to prevent the signs of ageing. Niamh's passion for the environment and sustainability means that she and her team take great care with every decision made, both in the creation of the products and the day to day running of the business. Products are vegan, cruelty-free and environmentally friendly.

Holos is a multi-award winning brand with over 20 awards under their belt, most recently winning an international gold award with prestigious "Free From Skincare Awards".

In 2016, while participating in ACORNS, Niamh won investment on RTE's Dragons Den, as well as being successful in getting funding from Enterprise Ireland's Competitive Start-up Fund.

The Holos team has grown to 5 people this year. 2020 sees the launch of Holos ME, a partnership based in Dubai. Holos also launched "Holos Skincare Therapy" training courses in 2019. Therapists train with Niamh, to become Holos Skincare Therapists which allows them to sell and provide treatments to their clients in their own clinics.

With Covid-19, the domestic market is predominantly online on www.holosskincare.com but Holos is available from selected Pharmacies, Health Stores and Holistic beauty Clinics nationwide.

Providing early stage female entrepreneurs, living in rural Ireland, with the knowledge, support and networking opportunities to meet and even exceed their current aspirations.
