holos
Skincare from Nature

Creating luxury skincare brand Holos was a natural progression for Niamh Hogan whose background is in natural health.

Through her research of plant and essential oils for wellbeing, Niamh discovered the great benefits plant ingredients have on the skin and was inspired to create a skincare range that focused on skin health and on helping to prevent the signs of ageing. Niamh's passion for the environment and sustainability means that she and her team take great care with every decision made, both in the creation of the products and the day to day running of the business. Products are vegan, cruelty-free and environmentally friendly.

Holos provides vitality for your skin, your wellbeing and your world through skincare that fits easily into your life. Harmonising Nature, Science and Consciousness, Holos is made using botanical ingredients, coupled with scientifically proven plant actives and is vegan, cruelty-free and eco-conscious.

Holos is a multi- award winning brand and 2021 saw Holos being named "Overall Champion" of the Europe wide "Free From Skincare" Awards where their This is More Get Better Butter took gold in the "Problem Skin" category and was chosen as overall product out of over 300 products entered.

The Holos team has grown to 7 people this year. Holos also launched "Holos Skincare Therapy" training courses in 2019. Therapists train with Niamh, to become Holos Skincare Therapists which allows them to sell and provide treatments to their clients in their own clinics. Holos is available direct to consumers in Ireland and Europe via www.holosskincare.com and this year launched their US based website www.holoskincareusa.com which sells direct to the US market.

Providing early stage female entrepreneurs, living in rural Ireland, with the knowledge, support and networking opportunities to meet and even exceed their current aspirations.
